

UPDATE: November 30, 2020

Dear Clients and Guests,

Great Life Counseling Center (GLCC) remains committed to prioritizing the health and well-being of our clients, clinicians, guests, and their families. Unfortunately, there has been a local and nationwide increase in COVID cases & deaths and it is projected to continue well into the start of the new year. In response to this growing concern, the GLCC team has decided to suspend all in-person visits until further notice.

To be clear, in-person sessions will always be our preference and we look forward to the days in which we will be able to resume in-person visits safely. We remain grateful for the privilege of being able to still serve our clients and work effectively using telehealth technology. We anticipate we will have to continue in this fashion until at least February 1st, 2021.

For clients who required in-person treatment for effective treatment, we apologize for the inconvenience this may cause. We believe this is a necessary precaution to protect the GLCC clinicians, clients, and the general public. While we strongly recommend clients avoid in-person visits altogether and carefully follow CDC safety guidelines for the next couple months, GLCC clinicians will be prepared to provide referrals for other qualified clinicians for those clients who are opposed to telehealth sessions.

Of course, we will continue to sanitize the GLCC office suite with enhanced cleaning and disinfecting procedures, especially for high-traffic & frequent contact areas such as door handles, desk surfaces, pens, credit card machine pads, light switches, table tops, playroom toys, etc. GLCC team members will also be avoiding physical contact with others, wearing masks when they are in common areas of the building or suite, washing their hands frequently, and sanitizing their office room surfaces between appointments. We feel confident these measures will allow us to provide a safe office environment, where GLCC clinicians can comfortably provide high quality telehealth services to all who are interested.

As always, we wish you well and encourage you to take care of yourself, your loved ones, and your community.

Sincerely,

The Great Life Counseling Center Team
