

**UPDATE: September 8, 2021**

**Dear Clients and Guests,**

**Great Life Counseling Center (GLCC) remains committed to prioritizing the health and well-being of our clients, clinicians, guests, and their families. Unfortunately, The Center for Disease Control is reporting a local and nationwide increase in COVID cases & deaths, particularly among the unvaccinated, due to the delta variant. Despite the recent FDA approval of the Pfizer vaccine and probable offering of the vaccine to children under 12 years old by the end of the year, the CDC does not anticipate cases and deaths to sufficiently decline until sometime in the spring of 2022.**

**In response to this public health concern, the GLCC team has decided to limit in-person visits until further notice to occasions of clinical necessity only and default the provision of GLCC services to telehealth or virtual meetings. All guests permitted by their GLCC clinician to visit the GLCC office will be required to wear a mask throughout their visit and encouraged to be mindful of social distancing and hand sanitizing. We believe these are necessary precautions to protect the GLCC clinicians, GLCC clients & guests, and the general public.**

**Great Life Counseling Center continues to regularly sanitize the GLCC office suite with cleaning and disinfecting procedures, especially for high-traffic & frequent contact areas. Per CDC guidelines for healthcare providers, GLCC clinicians have been advised to get vaccinated, avoid physical contact, wear masks in common areas of the building or suite, wash their hands frequently, and sanitize their office room surfaces between any in-person appointments. We feel confident these measures will allow us to continue to provide a safe office environment where GLCC clinicians can comfortably and safely provide high quality services from the GLCC office.**

**As always, we wish you well and encourage you to take care of yourself, your loved ones, and your community.**

**Sincerely,**

**The Great Life Counseling Center Team**
